

2021 ITDR Low Cost Generics Program

List of Covered Drugs

This program is one of the benefits ITDR Members are able to enjoy due to our size with over 24,000 Members.

Drugs included in the ITDR Low Cost Generics Program:

- **Every pharmacy that participates in the ITDR Low Cost Generics program discounts the same drugs.** If your drug is in the program, you may choose any participating pharmacy on the ITDR Low Cost Generics participating pharmacy list.
- **All drugs on the list were chosen based on those top utilized by our ITDR Plan Members,** rather than all clients of the insurance company.
- **The list on the following pages includes 48 drugs,** many at varying dosage levels. 25 of the drugs cost \$2.00, and the remaining 23 cost \$4.00.*
- **You will pay no more than \$2 or \$4 for a 31-day supply** during the Initial Coverage Stage, the Coverage Gap Stage, and the Catastrophic Coverage Stage.*
- **Generic drugs are not subject to deductible.**

* As drug prices may change throughout the year, the drugs included for \$2 or \$4 could change. All Members will be notified of any changes to the list. The benefit information provided is a brief summary, not a complete description of benefits. For more information contact the plan.

What if my generic is not on the ITDR Low Cost Program list of drugs?

Generally this would occur when all the participating pharmacies would not agree to the \$2 or \$4 cost, or the particular drug was not among the top drugs filled by ITDR Plan Members.
