

# 2023 ITDR Low Cost Generics Program

## List of Covered Drugs

This program is one of the benefits ITDR Members are able to enjoy due to our size with over 25,000 Members.

### Drugs included in the ITDR Low Cost Generics Program:

- **Every pharmacy that participates in the ITDR Low Cost Generics program discounts the same drugs.** If your drug is in the program, you may choose any participating pharmacy on the ITDR Low Cost Generics participating pharmacy list.
- **All drugs on the list were chosen based on those top utilized by our ITDR Plan Members,** rather than all clients of the insurance company.
- **The list on the following pages includes 48 drugs,** many at varying dosage levels. 25 of the drugs cost \$2.00, and the remaining 23 cost \$4.00.\*
- **You will pay no more than \$2 or \$4 for a 31-day supply** during the Initial Coverage Stage, the Coverage Gap Stage, and the Catastrophic Coverage Stage.\*
- **Generic drugs are not subject to deductible.**

\* As drug prices may change throughout the year, the drugs included for \$2 or \$4 could change. All Members will be notified of any changes to the list. The benefit information provided is a brief summary, not a complete description of benefits. For more information contact the plan.

### What if my generic is not on the ITDR Low Cost Program list of drugs?

Generally this would occur when all the participating pharmacies would not agree to the \$2 or \$4 cost, or the particular drug was not among the top drugs filled by ITDR Plan Members.
